## **Customer Reviews**

My daughter is about to start music in a week or two and this book was highly recommended by her teacher. It was purchased and shipped very quickly. The package was very secure in the box and I have no complaints.

I had this guitar manual many years ago, but lost it in a move somehow. I've picked the guitar up again after many years so I purchased this anew remembering how helpful the old one was. This is an improvement. It comes with a DVD inside and on-line assist. I would recommend it to a friend.

My son is currently taking music lessons & this book was required by his instructor. He seems to be progressing well. Will update in a few weeks, but so far so good.

A classic for a reason. Used this to learn guitar myself decades ago and use it to teach now.

I bought it to learn and if you follow the directions, YOU WILL LEARN !!! Love it
