Customer Reviews

Are you interested in interesting and scary books? If you are, then you should read 100 Scariest Things on the Planet. I learned that ghosts haunt the place where they die. Also ghosts go to other places and haunt that place. I also learned that there is a killer virus that can wipe everybody out. The killer virus is purple and it looks like there are little purple branches coming out of it. It was so interesting when the book shows you a picture of a little thing that looks like an alien. It has a tail,

spikes on it's back, two legs, two arms, a head, and two red eyes. It also looks like it is running with a herd of cows. It is scary when the book shows you something they call crop circles. The book and I think it is a message from another world. I also think the farmer just cut it to look like that. When you read this book you had better be prepared to be TERRIFIED!!!!

I bought these for my Nephew's and they Love them I just wish their were more of them to buy but I think their is only a certain amount of these great books! They are great to look and learn from!

Do you believe in ghosts? If you want to find out more about them, read this book. Aliens, deadly animals, killer viruses, scary places, scary monsters, and dangerous sports are featured in this book.

Normally, we commute on a road low to the ground. Imagine driving on Youngas Road where it is off the side of a cliff! We might think farmers made crop circles, but it might be aliens. We drive, but we would scream if we had to stunt drive. Don't even get me started about those pesky blood rains. It's scary, yet awesome.

El libro es una ventana abierta para explorar el mundo, mi hijo tiene 8 anos y constantemente se lo lleva a la escuela para compartir la informacion con companeros.

Bought several of these types of books for Christmas presents for my daughter (she's a bit of a geek) and she absolutely loved them.

My 6 year old son loves this book (and the rest by Anna Claybourne). We've given them away at every birthday party this year & its been a great hit.

Loved this book. I bought it for my 7 year old. He loves weird creepy stuff. He liked it so much he brought it to school to show his friends!
