My Time In Heaven

Synopsis

Is there life after death? After a tragic accident, doctors pronounced Richard Sigmund legally dead. Eight hours later, God miraculously brought him back to life on the way to the morgue. During those hours, God allowed him to experience the glorious beauty, heavenly sounds, sweet aromas, and boundless joys of heaven that await every believer. God then returned him back to earth with a mission to tell the world what he saw. You will thrill to Sigmund's eyewitness account of strolling down heaven's streets of gold, seeing angels playing with children, talking with Jesus, meeting with people from the Bible and departed family and friends, seeing the mansions, and much more! Through Sigmund's testimony, God has restored sight to the blind and hearing to the deaf and has even raised several people from the dead. Also, you will catch a glimpse of the horrifying reality of "the other place"--a place where no one wants to go.

Customer Reviews

For the last several years, I have studied near death experiences. There have been many fine books which have helped me understand more about what heaven and hell are like. Of all I've read on heaven, this is one of the best. I've given out 5 copies and every person who has read it has also said it's one of the best books they've read about heaven. You will love this book. I think every person should read it to get a greater excitement about Our future home.

Reading this book the first time was a holy experience for me ~ it took me to a place I can't wait to visit again. I shared my copy with a friend and immediately ordered a new one! In the meantime I

read the 'daughter-in-law' review and was disheartened. I questioned whether or not to share this book based on that review (from someone who has never read the book) and I decided ABSOLUTELY!! I will not know in this lifetime if the author embellished the story. And honestly I don't care. This book opens the gates of heaven, brings Jesus front and center and makes you want to live your life on this Earth for God. If you want to see heaven in a way that most of us could never imagine ~ I HIGHLY recommend it! If you want to become more conscious of how much Jesus loves us ~ I HIGHLY recommend it! If you want to become more aware and be inspired to start living your life for God's glory ~ I HIGHLY recommend it!! I just finished reading this book again and I LOVE IT! Any book that brings you closer to the heart of God, that brings you comfort about dying, that comforts you when you've lost a loved one, that encourages and inspires you to live a better life on this earth ~ that's a book worth reading!! I can't wait for that sweet someday ... and if it's even half as fabulous as this book paints ... it'll SOOOO be worth the wait!

I HIGHLY recommend this book. We are friends of the author and his wife. Everything he writes in this book is true. He is a humble man of God and is used by God to minister to people daily for healing, or wisdom and insight in their lives. I read his first book, "A Place Called Heaven" and this one goes even further and it has testimonies from people who experienced healing or witnessed a healing. Our son's story would have been in the book but it wasn't written up in time for the first printing. This is what happened to him... Our son had a serious back injury at work in 2005 which hindered him from working and kept him in pain most of the time. He had back surgery which didn't work and the doctor told him he would need another surgery and couldn't promise its' success either. We drove to Iowa to visit the Sigmunds in late Sept. of 2008 and during the time Richard was praying for our son in the hotel room, he was miraculously healed! He was able to pick up my husband out of his chair right then! He is STILL healed over one year later and back to working. We are SO thankful to God for this. Well, this book is a wonderful portrayal of all that Richard saw when he was dead for 8 hours and experienced the glory of Heaven and the terror of hell. Please read it!

This book confirmed my thoughts about Heaven and other books I've read with regard to similar experiences. I lost my 30 year old son last year and this book comforted and encouraged my heart. I can't wait for our final reunion for all eternity!

This is by far the best first-hand experience book on Heaven that I've ever read. I've read 90 Minutes in Heaven by Don Piper which was very good. However, Mr. Sigmund was in heaven for 8

hours and explains his experiences with such vivid recall that the two books can hardly be compared except to say that Mr. Piper's book was an appetizer and Mr. Sigmund's book was a 5-course meal. This book is not to be missed!!

In short, Mr. Sigmund does an excellent job of describing the undescribable. He was given a heavenly tour, and the book is a real page turner from start to finish. Knowing a bit more about what Christians can expect up in heaven make the little troubles in life here on earth much less significant. I know there may be skeptics out there, just as there are people who refuse to accept Jesus as the only way of getting to heaven. Without any question, I believe every word of this book. It is so thought provoking that I intend to read it again and would highly recommend it to anyone who is studying heaven.

I highly recommend this uplifting book. It has lots of intriguing detail on what heaven is like. God is so good!

This was a book written with an agenda: to support the church's view of God and the pastor-centric position.....given all that is transpiring within the institutional church (people leaving in droves and not returning) this book is like a history book from the 70s. It is a view of Jesus seen from behind the pulpit and the theological nonsense that has driven me (finally) from church myself. It validates the message of a Jesus seen from a distance....Can you imagine arriving in heaven and having to "wait your turn to see him"....and He titillates you by walking by you from across the street and looks at you then walks away? Or the size of the mansion in relation to how many converts you had, as if people are going to care about that....and don't you know the pastors and missionaries have the biggest mansions.....sigh...the only redemptive part of this book is some of the fun things that people supposedly do there, and how relational everyone is.....having had 4 deaths in the family in the last three years, including my wife of 27 years I have been "into" into the nde books, and this one was by far the worst. Makes me want to go back and hide from the angry God, rather then run into the arms of He who I know loves me....
