Customer Reviews

I respect the intentions but more effort should have been put into this. At the price that it was sold at, I suppose it was worth it. However if more content was put into this book along with pertinent

information about the figures included. A stepper price would be worthy. My 4yo daughter was done coloring this book (in detail)within a hour and gained no further knowledge about these important figures then what the general public already tells them.

This book is a life saver for my granddaughter, and it helps her to appreciate her culture more. At age 4, she lovesappreciates seeing her people in books.

My son loves this colouring book and it full,with great info all about black history!

This coloring book is nice but it is very thin. I think more pages of black history definitely should be added.
